KUALA LUMPUR

More than any other spot in the country, Kuala Lumpur, or "KL" as it is commonly known, is the focal point of new Malaysia. While the city's past is still present in the evocative British colonial buildings of the Dataran Merdeka and the midnight lamps of the Petaling Street nightmarket, that past is everywhere met with insistent reminders of KL's present and future. The city's bustling streets, its shining, modern office towers, and its cosmopolitan air project an unbounded spirit of progress and symbolize Malaysia's unhesitating leap into the future. To some, this spirit seems to have been gained at the loss of ancient cultural traditions, but in many ways KL marks the continuation rather than the loss of the past. Visit:

- Little India
- Thean Hou Temple
- Batu Caves
- Jalan Ampang
- Kampung Baru
- Royal Selangor

DUBAI has been distinguished as the most modern and cosmopolitan environment in the Emirates, especially due to its rapid technological transformation over the past few decades. Dubai is a landmark for innovation; some might even compare it to the computer game Sim-city where expansion has no limit. The city boasts remarkable skyscrapers, such as the world's current tallest building, the Burj Dubai, and is also in the process of developing one of the most technologically advanced buildings in the world. Although Dubai has been transformed into a man-made hi-tech city, it still has a strong Islamic culture with a stretch of historical buildings by the Creek and is considered to be a captivating city that offers both extremes; a traditional past interlinked with modern day. Visit:

- Historic Deira
- Underwater Hotel
- Bustakiya Quarters
- Hatta Mountains
- Indoor ski fields
- Burj Al Arab

Austria

Winter in the Austrian Alps is a magical time. Cities and villages come alive with regional events, customs and traditions.

The Charm of Austrian villages and traditional life is inspiring. Austrians, while being famous for their hospitality, are also famous for their skiing and, as some would say, more importantly, their après ski. A winter holiday in the Austrian Alps means staying in traditional villages rather than new purpose built complexes. These villages are still inhabited by the same families who have lived there for generations and keep the traditions alive in their day-to-day activities - one of which is enjoying as much time on the slopes as possible.

Italy

The Italian approach to skiing is a relaxed and friendly one. Skiing is only part of the experience; food, wine, lunch and friends are equally important to the Italians.

You can ski the massive Dolomites region which includes the famous Sella Ronda route and the alps in the north west where the 2006 Winter Olympics were hosted. Of course, a major advantage of skiing in Italy is that you can also take in the sights of Rome, Florence and Venice.
